Semi-Annual Index

Cement MILL SECTION of CONCRETE

Index, Vol. 23, July to December 1923

CONCRETE-CEMENT AGE PUBLISHING CO.

DETROIT, MICHIGAN

An illustrated article is indicated by an asterisk after the title

A

Accident Prevention—Fatal Accidents in First Half of 1923....Oct. 69
—Locking Controller Prevents Accident..Nov. 90
—National Safety Council Meets....Nov. 83
—Raising Honor Flag at Canada Plant...Oct. 71
—Safety as Viewed by an Executive, by E. M. Young....Dec. 111
Acme Portland Cement Co. Plant—Cooperation Urged at....July 20
Aerial Conveyor—Lehigh Portland Cement Co. —Moving a Hillside with*....Sept. 43
Alcement—Bauxite, a Constituent of*....July 6
Aluminum—Bauxite—Production in 1922....Oct. 71
Ammite—Explosive—New Non-Freezing....Sept. 57
Anderson, Henry—British Columbia Cement Plant Contains Unique Features*....July 1
Anhydrite—Utilization of in Cement....Dec. 113
Anti-Dumping Act—Application to Cement Asked....Nov. 92
Asia—Business Conditions—Cement Will Solve Problems*, by Paul C. Van Zandt....July 9
Associated Portland Cement Manufacturers Meet....July 16
Azbe, Victor J., LimeKiln Thermal Efficiency Aug. 25

B

Bags, Cement....Dec. 112
Bags—Effect of Hot Cement on Paper, by W. Herzberg....Dec. 109
—Freight Rates—Empty, Return....Sept. 45
—Jute Sacks—Cement....Oct. 67
—Tentative Standards for Cement....Dec. 109
Barab, J.—Spear for Lowering Dynamite....Oct. 71
Bauxite—A Constituent of Alcement*....July 6
—Aluminum—Production in 1922....Oct. 71
Blasting—Dynamite—Spear for Lowering, by J. Barab....Oct. 71
—Fumes—New Gelatin Reduces....July 20
—Practical Cap Container*....Dec. 113
—Quarry—How We Drill, Blast and Keep Records*, by E. J. Strock....Oct. 65
—Quarry—Scientific....July 7
Boardman, John W.—Cement Carrier Launched....Sept. 56
Bowles, Oliver—Late Developments in Quarrying for Lime Manufacture....July 4
—Lime Research—Untrodden Field in....July 15
British Columbia Cement Plant—Contains Unique Features*, by Henry Anderson....July 1
—Portland Cement Manufacturers Report Poor Year....July 16
Building Conditions—Michigan—State to Consider Methods of Purchasing Cement..Dec. 107
Business Conditions—Anti-Dumping Act—Application to Cement Asked....Nov. 92
—Asia—Cement Will Solve Problems, by Paul C. Van Zandt....July 9
—Cuba—Market for American Cement...Nov. 95
—England—British Trade in Cement, by Alfred Nutting....Dec. 105
—Michigan Cement Quiz....Oct. 73
—Missouri—State Arranges for Its Cement Requirements....Dec. 107
—No Hope of Reduction in British Columbia....Dec. 112
—Profits — Cement Manufacturers Analyzed....Sept. 52
—The Added Volume That Made a Profit Possible, by John R. Morron....Aug. 29

C

Canada—Business Conditions—No Hope of Reduction in British Columbia....Dec. 112
—Lime—Floods Injure Industry in Maritime Provinces, by William J. McNulty...Sept. 53
—Lime—Production Heavy, by W. J. McNulty,....Dec. 104
—Plant—Accident Prevention—Raising Honor Flag....Oct. 71
Car Shortage—Freight....July 20
Chemistry—Biography of Colloid....July 20
—Cement—Setting of Portland, by Laurence W. Gadd....Sept. 41
—Gypsum—Dehydrating by Steam Under Pressure....Dec. 105
—Lime Research—Untrodden Field in, by Oliver Bowles....July 15
—Quicklime for Use in Manufacture of Sulfite Pulp....Aug. 36
—Quick Lime—Specifications for Causticizing....Sept. 53
—Standard Methods of Chemical Analysis (New Book)....Nov. 88
—Wet Process—Viscosity of Raw Material Slurry....Nov. 91
China—Ching Ching Cement Co....July 20
—Lime Industry in, by M. H. Chou....Sept. 42
Chou, M. H.—Lime—Industry in China....Sept. 42
Clay—Production in 1922....Dec. 112
Coal—Growing Demand for Pulverized....Nov. 95
Coals for Cement Burning....Dec. 112
Colorado Portland Cement Co.—Houses for Employes*, by E. J. Strock....Sept. 43
Compressive Strength—Twelve Hour Tests..Dec. 108
Conveyor Belts—Protecting Against Wear...Nov. 92
Cottrell, K. W.—Gypsum in 1922....Dec. 103
Cover, Jr., Loring A.—Security Cement & Lime Company Plant Enlarged and Improved*....Aug. 21
Cuba—Market for American Cement in....July 5
—Market for American Cement....Nov. 95

D

Drill—Quarry—Armstrong All Steel*....Sept. 57
Dust—Two methods for saving cement....Nov. 91
Dynamite—Spear for Lowering, by J. Barab..Oct. 71

E

Electric Furnace—Lime, Burned in....Dec. 103
England—Associated Portland Cement Manufacturers....July 16
—British Portland Cement Manufacturers Report Poor Year....July 16
—Business Conditions—British Trade in Cement, by Alfred Nutting....Dec. 105
—Cement Research in....Nov. 90
Egypt—Cement, Trade in....July 16
Erdell, Charles W.—Cement Labels I Have Met—Part 6*....July 12
—Cement Labels I Have Met*....Aug. 32
—Cement Labels I Have Met*....Sept. 46
Excavator—Quarry Overburden Mechanically Stripped*....Oct. 74
Explosive—Ammite—New Non-Freezing....Sept. 57

F

Ford, Burton A.—Lime Association—New General Manager for....Nov. 96
Fredonia Portland Cement Co.—Labor Conditions —Employment Twelve Months of Year*....Aug. 36
Freight Rates—Bags—Empty, Return....Sept. 45
—Cooperation in Revision of Cement..Nov. 84
—in the West....July 20
—Recent Rulings....Dec. 107
—Western Cement....Sept. 45
Fuel Economy—Coal—Growing Demand for Pulverized....Nov. 95
—Coals for Cement Burning....Dec. 112
—Lime—Thermal Efficiency—Kiln* by Victor J. Azbe....Aug. 25
—Waste Heat from Kilns Operates Entire Mill....Dec. 106
Fuses—Potential Transformer*....Nov. 94

G

Gadd, W. Laurence—Setting of Portland Cement....Sept. 41
Ganschow, William—Is Standardization Enough?....Oct. 75
Gears—Machine Molded*....Nov. 94
Germany—Lime in 1922, by Orsun N. Nielsen....Sept. 58
—Limestone—Production in 1922....Nov. 82
—Potash Production Meets with Difficulties....Dec. 112
Gypsum Mined in 1922 Shows Increase....Sept. 40
—Dehydrating by Steam Under Pressure..Dec. 105
—in 1922, by K. W. Cottrell....Dec. 103
Gypsum Mill — Pacific Portland Cement Co. — Mechanical Equipment, by W. C. Stevenson....Dec. 101

H

Herzberg, W.—Effect of Hot Cement on Paper Bags....Dec. 109
Houses—Colorado Portland Cement Co.—Erects for Employes*, by E. J. Strock....Sept. 43

I

Imports—Increased Cement Production Capacity Meets....Sept. 54
Italy—Mechanical Equipment—Segni Cement Co. Plant*, by William B. Newberry..Oct. 62

J

Japan—Cement Industry Prosperous....July 16

K

Kansas—Cement Companies Found Not Guilty....Nov. 84
Kiln—Cement System Patented....Nov. 92

L

Labels—Identified....Oct. 73
—I have met—Part 6, by Charles W. Erdell....July 12
—I have met — Part 7, by Charles W. Erdell....Aug. 32
—I have met — Part 8, by Charles W. Erdell....Sept. 46
Labor Conditions—Acme Portland Cement Co. Plant—Cooperation Urged at....July 20
—Fredonia Portland Cement Co. Employment Twelve Months a Year*....Aug. 36
Laboratory—Superior Portland Cement Co.—Office Building*....Nov. 77
Lehigh Portland Cement Co.—Mechanical Equipment—Aerial Conveyor—Moving a Hillside with*....Sept. 43
Lesley, Robert W.—Cement Production in 1922....Nov. 85
Lime Association—Ford, Burton, A—New General Manager for....Nov. 96
—National, Holds Important Meeting...July 4
—Plans Extensive Research Work....Sept. 52
Lime Blocks — Quick Setting Developed by Bureau of Standards....Oct. 67
Lime Manufacture — Quarrying — Late Developments for, by Oliver Bowles....July 4
—Overburned Causes "Popping" in Plaster....Nov. 95
—Quicklime for Use in Manufacture of Sulphite Pulp....Aug. 36
Lime Plant—Western Lime & Cement Co. July 14
Lime Research—Untrodden Field in, by Oliver Bowles....July 15

—Way to Make Better....Oct. 64
Limestone—Production in Germany, 1922...Nov. 82
—Utilization of Waste at Lime Plants....Dec. 113
Lindquist, A. J.—Silo Storage at Sandusky Cement Co. Plant*....Sept. 39

M

Magnesian Cements—Bibliography of....Dec. 105
Magnesite—Tariff—Hearing on Postponed..Nov. 90
Manitowoc Portland Cement Co.—Cement Plant....July 15
McNulty, William J.—Floods Injure Lime Industry in Maritime Provinces....Sept. 53
—Lime—Canada—Production Heavy....Dec. 104
Marquette Cement Manufacturing Co.—Storage Warehouses*....Dec. 100
Mechanical Equipment—Aerial Conveyor—Lehigh Portland Cement Co. Moving a Hillside with*....Sept. 43
—British Columbia Cement Plant Contains Unique Features*, by Henry Anderson....July 1
— Caterpillar Tractors — Plant and Quarry*, by Russell E. Van Arsdale....Oct. 72
—Cement Carrier, by John W. Boardman..Nov. 70
—Cement Plant—Pyramid Portland Cement Co.—New Plant Starts Operations*..Oct. 59
—Conveyor Belts—Protecting Against Wear....Nov. 92
—Fuses—Potential Transformer....Nov. 94
—Gears—Machine Molded*....Nov. 94
—Information Centralized....July 20
—Italy—Segni Cement Co.—Plant*, by William B. Newberry....Oct. 62
—Kiln—Cement System Patented....Nov. 92
—New Zealand—Wilsons' New Zealand Cement Co....Dec. 97
—Pacific Portland Cement Co.—Gypsum Mill, by W. C. Stevenson....Dec. 101
—Quarry Drill—Armstrong All Steel*...Sept. 57
—Quarry Excavator, Overburden Economically Stripped....Oct. 74
—Quarry—Heavy Duty Shovel*....Sept. 57
—Quarry—Shovels Traction Wheel Mounting for Railroad*....Oct. 74
—Shaft Cement Kilns Improvments in....Dec. 108
—San Antonio Portland Cement Co.—Success in the Cement Industry*, by Charles Baumberger....Nov. 79
—Security Cement & Lime Co. Plant Enlarged and Improved*, by Loring A. Cover, Jr....Aug 21
—Solder Pot—Wallace*....Oct. 75
—Standardization—Is It Enough?*, by William Ganschow....Oct. 75
—Synchronous Motors New Automatic Starters for*....Sept. 58
—Waste Heat from Kilns Operates Entire Mill, by H. A. Schaffer....Dec. 106
Michigan—Business Conditions—Cement Quiz....Oct. 73
—Options Land for State Cement Plant...Oct. 70
—State to Consider Methods of Purchasing Cement....Dec. 107
Missouri—State Arranges for Its Cement Requirements....Dec. 107
Morron, John R.—The Added Volume That Made a Profit Possible....Aug. 29

N

National Cement Co. Plant—New Canadian under Construction*....Sept. 51
National Safety Council Meets....Nov. 83
Newberry, William B.—Segni Cement Co.—Italy Plant*....Oct. 62
New Zealand—Mechanical Equipment—Wilsons New Zealand Cement Co.*....Dec. 97
Nutting, Alfred—British Trade in Cement...Dec. 105

O

Office Building—Superior Portland Cement Co.—Laboratory*....Nov. 77

P

Pacific Portland Cement Co.—Mechanical Equipment—Gypsum Mill, by W. C. Stevenson....Dec. 101
Phoenix Portland Cement Company's—Plant Fire at....Oct. 69
Plant—British Columbia, contains unique features by Henry Anderson....July 1
—Manitowoc Portland Cement Company..July 15
— Mechanical Equipment — Italy — Segni Cement Co.* by William B. Newberry Oct. 62
—Mechanical Equipment—Pyramid Portland Cement Co.—New plant starts operat-ions*....Oct. 59
—Michigan—Option land for state....Oct. 70
—National Cement Co.—New Canadian under construction*....Sept. 51
—Phoenix Portland Cement Co—Fire at..Oct. 69
—San Antonio Portland Cement Co—Success in Cement Industry*, by Charles Baumberger....Nov. 79
—Security Cement and Lime Co—Enlarged and Improved,* by Loring A. Cover. Jr...Aug. 22
—Silo Storage—Sandusky Portland Cement Co.,* by A. J. Lindquist....Sept 39
—South Dakota—Progress of state....Oct. 73
Portland Cement Association Meets, 1923...Dec. 110
Portugese East Africa—Cement—Market for Building....July 16
Potash—German Production Meets with Difficulties....Dec. 112
Production—Cement—in 1922, by Robert W. Lesley....Nov. 85
—Cement in August 1923....Oct. 68
—Gypsum Mined in 1922 Shows Increase..Sept. 40
—Imports—Increased Cement Capacity Meets....Sept. 54
—Limestone—in Germany 1922....Nov. 82
—Portland Cement in May, 1923....July 15
—Portland Cement in June 1923....Aug. 35
—Portland Cement in July 1923....Sept. 54
—Portland Cement in September 1923....Nov. 89
—Portland Cement Sets New Record in 1923....Dec. 104
Profits—Cement Manufacturers Analyzed...Sept. 52
Pyramid Portland Cement Co.—Mechanical Equipment—New Plant Starts Operations*....Oct. 59

Q

Quarry—Blasting—How We Drill, Blast and Keep Records*, by E. J. Strock....Oct. 65
—Mechanical Equipment—Caterpiller Tractors*, by Russell E. Van Arsdale....Oct. 72
—Mechanical Equipment—Drill—Armstrong All Steel*....Sept. 57
—Mechanical Equipment—Excavator*....Oct. 74
—Mechanical Equipment—Heavy Duty Shovel*....Sept. 57
—Shovels—Traction Wheel Mounting for Railroad*....Oct. 74
Quarry Blasting—Scientific, by J. Barab....July 7
Quarrying—Lime Manufacture—Late Developments for, by Oliver Bowles....July 4
Quicklime—Chemistry—Specifications for Causticizing....Sept. 53
Quicklime for Use in the Manufacture of Sulphite Pulp....Aug. 36

R

Refractories—Aluminous....Oct. 71

S

Sacks—Cement....Dec. 112
—Effect of Hot Cement on Paper, by W. Herzberg....Dec. 109
—Jute Bags—Cement....Oct. 67
—Tentative Standards for Cement....Dec. 109
San Antonio Portland Cement Co.—Success in the Cement Industry*, by Charles Baumberger....Nov. 79
Sandusky Cement Co.—Silo Storage at*, by A. J. Lindquist....Sept. 39
Schaffer, H. A.—Waste Heat from Kilns Operates Entire Mill....Dec. 106
Sea Water—Disintegration of Cement in....Nov. 92
Security Cement & Lime Co. Plant Enlarged and Improved*, by Loring A. Cover, Jr. Aug. 21
Segni Cement Company—Italy Plant*, by William B. Newberry....Oct. 62
Shaft Cement Kilns, Improvements in....Dec. 108
Ship — Boardman, John W. Cement carrier launched....Sept. 56
—Mechanical Equipment, by John W. Boardman....Oct. 70
Shovel—Mechanical Equipment—Quarry*..Sept. 57
Shovels*—Traction Wheel Mounting for*....Oct. 74
Silo Storage—Cement Company Plant, by A. J. Lindquist....Sept. 39
Solder Pot—Wallace*....Oct. 75
South Dakota—Cement Plant—Progress of State....Oct. 73
Standardization—Is It Enough?*, by William Ganschow....Oct. 75
Stevenson, W. C.—Pacific Portland Cement Co.—Builds New Gypsum Mill....Dec. 101
Storage Warehouses—Marquette Cement Manufacturing Co.*....Dec. 100
Strock, E. J.—Colorado Portland Cement Co.—Erects Houses for Employes*....Sept. 43
—How We Drill, Blast and Keep Records*....Oct. 65
Superior Portland Cement Co.—Office Building—Laboratory*....Nov. 77
Synchronous Motors—New Automatic Starters for*....Sept. 58

T

Tariff—Magnesite—Hearing on Postponed..Nov. 90
Thermal Efficiency—Lime Kiln*, by Victor J. Azbe....Aug. 25
Tractors—Caterpillar, Around Plant and Quarry*, by Russell E. Van Arsdale....Oct. 72

V

Van Arsdale, Russel E., Caterpiller Tractors Around Plant and Quarry*....Oct. 72
Van Zandt, Paul C., Cement Will Solve Many Asiatic Problems*....July 9
Viscosity of Raw Material Slurry....Nov. 91

W

Waste Heat—from Kilns Operates Entire Mill, by H. A. Schaffer....Dec. 106
Western Lime & Cement Co.—Lime Plant...July 14
Wet Process—Chemistry—Viscosity of Raw Material Slurry....Nov. 91
Wilsons New Zealand Cement Co.*....Dec. 97

Y

Young, E. M.—Safety as Viewed by an Executive....Dec. 111
